## Introduction of Revit MEP

- Training Files Setup
- Modifying the View
- Option

## Starting MEP Projects

- Link to CAD file
- Linking Projects
- View Templates
- Add to Templates

## Modifying System Settings

### Planning Mechanical Systems

- Adding Mechanical Equipment's
- Adding diffuser
- Create Duct System.
- Adding Duct Manually
- Duct Fitting
- Duct Accessories
- Duct Sizing.
- Duct Pressure losses report.
- Duct Legend
- Check connection system of Duct
- Duct Size analysis.
- Spaces and Zones
- Heating and cooling loads

### Plumbing Design and Fire Fighting System

- Plumbing & Piping Systems
- Sanitary Plumbing Fixtures

### Planning Fire Protection Systems

- Specifying Pipe Settings
- Determining Zone Requirements
- Adding Sprinklers
- Creating Piping Systems
- Vertical Supply Piping
- Pipe Diameters

## **Electrical**

- Electrical Designing system
- Panel schedules

## **Creating Documentation Views**

- Duplicating Plan View
- Creating Callout Views
- Annotations & Dimensions
- Creating Annotations
- Creating Dimensions
- Creating a Legend
- DETAILING
- Creating Detail Wiring
- Importing CAD Drawings

## **Revit MEP Families**

- Electrical Equipment Families
- Toilet Families
- Light Fixture Tag Families
- Flange Families
- Elbow Pipe Fitting Families
